Remember To Take Your Vitamins

The Daily Pack by Dr. Morrison's DailyBenefit is the solution to remembering all your daily supplements. After years of working with patients and prescribing nutritional protocols, the biggest challenge for Dr. Morrison was to get his patients to manage all their nutrients packaged in multiple bottles. The ingredients in the Daily Pack are sealed in mini convenience packs for a 30-day serving. All the ingredients are fresh manufactured as well as preservative and excipient-free! The packs contain all the essentials such as Multi-Vitamins, Probiotics for digestive health, Omega 3s, Vitamin C, and

Green Tea Extract. The packs are the best for when you're traveling or on the go. When you head out to your next yoga retreat, don't weigh yourself down. Just bring a few Daily Packs in your carry-on and you'll be feeling great all week!
